Lesson 46

The 3rd Judgement, The 3rd Plague: Lice

Exodus 8: 16-19; Psalm 105: 4-5, 26-27, 31; Exodus 4: 14; Leviticus 16: 2; Exodus 7:1; Genesis 15: 13-16.

1. Now that the plague of frogs in the land of Egypt has passed, know that the Bible does not say how long they lasted. 2. The Lord will continue to bring His judgements upon the Egyptian nation until the Pharaoh lets the Children of Israel go! 3. Remember, what the Lord told Abraham in a dream? 4. In the fourth generation, after four-hundred years of slavery, will his seed, (the Children of Israel be freed). 5. Also, it is that nation, (the Egyptians), that God will judge. 6. These judgements are the plagues that the Lord are now bringing upon the Egyptians. 7. (Recite- Next, the Lord told Moses to tell Aaron to stretch out his rod to smite the dust of the land of Egypt that it may become lice in man and beast). 8. (Recite- This will be the third plague that the Lord will bring upon the land of Egypt). 9. Moses and Aaron did as the Lord had commanded them. 10. After Aaron, who is Moses' brother and Moses'prophet stretched out the rod as Moses had commanded him over the dust of the land of Egypt, (Recite- the dust became lice in both man and beasts). 11. (Recite- When the magicians also tried to bring forth lice, this time they could not)! 12. The magicians then said to the Pharaoh that, (Recite- 'this is the finger of God'). 13. As times before, (Recite- the Pharaoh's heart had become hardened and neither would he hearken to Moses and Aaron as the Lord had spoken). 14. Remember, that (Recite- when the Pharaoh's heart was hardened, that meant that the thoughts of his mind would not change easily)! 15. So, this meant that he still would not let the Children of Israel go! 16. Also remember that (Recite- the word hearken means to listen). 17. Once again, the Bible did not say how long the plague of lice lasted in the land of Egypt, which is also known as the land of Ham.

About Lice

18. Now, what are lice and how do they look? 19. (Recite- Lice are bugs which are insects that are tan or beige in color, with at least six legs). 20. They do not fly nor do they jump. 21. They are so small that they are very hard to see and may look like dandruff in your hair. 22. (Recite- They are also parasites that lives on the skin and in the hairs of the body). 23. What is a parasite? 24. (Recite- A parasite is an organism that lives by eating on another organism). 25. In the case of the lice that the Lord brought upon the land of Egypt, (Recite- the lice was living on; biting and eating the skin of man and beasts). 26. (Recite- In the hair, they lay eggs very close to the scalp by hairs on the head). 27. That area is the perfect temperature for them to have babies when laying their eggs in the hairs of both man and beasts. 28. (Recite- Some lice will bite into your skin and suck on your blood). 29. (Recite- As the lice bites into your skin, it may feel like an itch). 30. As you scratch you may even bleed a little. 31. (Recite- Lice bites appears like tiny red spots). 32. Some lice can even spread disease. 33. (Recite- A disease is something that can hurt the body, keeping it from working the way it should). 34. Now, how do you think the Egyptians felt when the Lord brought upon them the plague of lice!
